
Silicone Emulsion BR-6018

Description

BR-6018 is a medium viscosity silicone oil emulsion. BR-6018 can show better gloss and dispersion.

BR-6018 can used as textile smoothing agent, rubber release agents and polishing agent for materials.

Technical Index

| Item | Specification |
|------------------|--------------------------------|
| Appearance | Milky white homogeneous liquid |
| Solid content(%) | 60.0-66.0 |
| pH value | 7.0-9.5 |
| Density | 0.95- 1.05 |

* Solid content can be customized according to customer requirements.

Properties and Features

- High silicone content, less usage and economical.
- High stable performance, can be diluted to the required concentration with water.
- Polishing and improve the surface gloss.
- Performance of characteristics of lubrication and non-erosion.
- Temperature resistant (50 °C) and shear resistant.

Application

Suit for textile raising agent(For Polyester Knitted fabric, T/C fabrics) and no yellow change softener; and

plastic and rubber release agent; leather and furniture polishing agents; rubber tackifier; latex product processing of chicken claw recess membrane release agent; medicine and hair care and so on.

Packing

50kg or 200kg drums, 1000kg IBC drums.

Storage

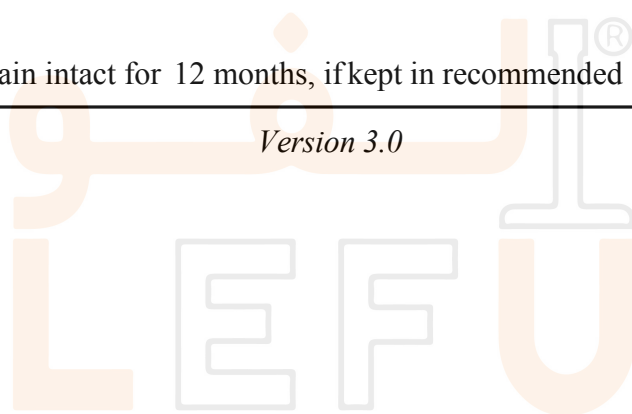

Sealed storage under 5-35 °C and well ventilated, Avoid contact with acids and alkali substance.

Shelf life

Original characteristics remain intact for 12 months, if kept in recommended storage.

Revision Date: 12/25/2021
